Welcome to your new home with Control4.   We've included a Control4 HC-250 controller and some lighting control switches for you to experience home automation.   To ensure that you we can come over and integrate Control4 with your existing TV and audio/video system, please have your TV already setup with an active internet connection ready.   We can schedule an appointment with one of our technicians and setup your new Control4 controller.

You can see the upgrade possibilities by visiting the Control4 website at www.control4.com and our technician will be happy to discuss the upgrade possibilities.

Once your TV and internet service are ready, please contact us at 604-771-2222 or email us at control4@campuscomputers.com to schedule an appointment.
